### TILTING TABLE

Tilting allows for small business spaces to get a large table. Tilting also helps save on equipment transportation costs

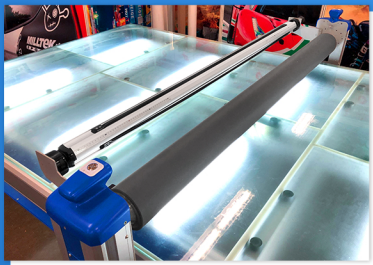

### SIDE TRAYS

Side trays give the end user a great space for material & tool storage which speeds up overall production

### PNEUMATIC LIFTING

Effortless 1-button up & down roller control provided by a highly efficient pneumatic air system

### LED ILLUMINATION

The illuminated table is ideal for registration & application of multicolored or translucent graphics

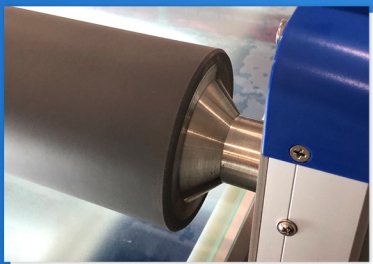

### HEATED ROLLER

The addition of heat creates a higher quality & longer lasting bond

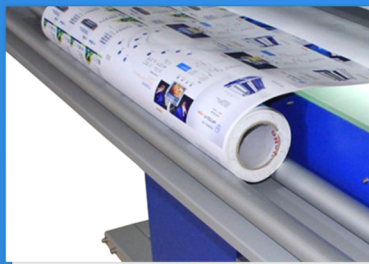

### COMPRESSOR INCLUDED

This space saving, noise dampening compressor packs a lot of power & is included with the table

### PREMIUM SILICONE ROLLER

6" diameter premium silicone roller allows for quick and easy heavy-duty work

### MEDIA ROLL HOLDER

Make working with rolls easier & increase productivity

### CONTROL PANEL

A simple & easy to use control panel

65.5" Roller Tray  
***Included!***
